

Please let Christian Radio Stations alone!!!! As an American, it is MY RIGHT to listen to Christian Music and gospel readings.

What is wrong with our country?? You allow stations that play sexual explicit music. Our children are subjected to porn instead of prayer. Our country was built on a foundation of GOD and religion, and somewhere along the line, we have been told not to pray, or believe in GOD. There are more Christians in the United States of America, however, we seem to now be the minority.

As a Christian, growing up in PA during the 50's & 60's, my parents taught me to believe in GOD and country, to respect all individuals and their beliefs. My husband was brought up to believe in the same things. Together we have taught our children the same. Unfortunately our children (NOT MINE) are out of control, along with many adults and YOU, our government allow this to happen.

Please, let us Christians have something!!
